Amendment, filed 8/06/010, has been entered.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance:

The present invention is directed to a communication apparatus/system and method for interconnecting two Virtual Private Networks (VPN), each arranged at a different Internet Protocol (IP) network.

The prior art of record does not teach or fairly suggest at least the following:

Receiving a packet from the first VPN of the first IP network, comprising a destination IP address and a first VPN identifier and generating a packet for the second VPN in the second IP network, wherein generation unit or step generates a packet for the second VPN network based on combine processing of the destination IP address and the first VPN identifier, as specified in independent claims 2, 6, 10, 13, 17 and 21.

The closest prior art, McCloghrie (US 6,035,105) and Chase (US 6,081,524), fail to anticipate or render the above limitations obvious singularly or in a combination.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should be preferably accompany the issue fee.

Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance"

2. Claims 2-19 and 21-23 are allowed.

Conclusion

The claims being allowed, **Prosecution On The Merits Is Closed** in this application.
